“Granny was such a warm and loving person. She loved her family in both blood and marriage. Family meant family, no matter what. She was a firm believer in the idea of “once family, always family”. She even still treated my dad, Brad, like a son after my mother (Ida) tragically passed in 2019. I know my dad cherished that, since she was the closest person he had to a mother. Granny’s love brightened the lives of many, and her caring nature will be remembered always.
