“ First off I want to say I LOVE YOU UNCLE DON, tears have not stopped since I heard you were gone. In the last couple of years we have become closer and I thank the Lord above that I was able to spend that time with you. I can still feel the hug you gave me at the rodeo in June. I will treasure that forever, you always had that calming effect on me, always felt safe with you. The big, burley, stong, silent cowboy that loved his family so strongly like a kodiak bear when you were the best teddy bear around :)

Jamie is missing talking to his Equine mentor very bad, he is taking your passing very hard. He has the utmost respect for you. He LOVED you, loved talking with you and gaining your knowledge. We still laugh about you asking him "Now Jamie, what do you want with that Draft Horse?" He loved to brag on your Rodeo Company. Basically bragged on you. I can't blame him, I do too. There is a song that when I hear it I automatically think of you. Garth Brooks *Rodeo*. "It's the broncs and the blood, It's the steers and the mud

And they call the thing rodeo". But now it will be different. I will cry now. I will be ok, for I know you are still there, watching from above. My heart is hurting but it is still holding you there. I LOVE YOU UNCLE DON. Forever Remembered in LOVE...My bear...Love Your Niece, Tracy and her Husband Jamie.

“ *Kenny and Sue, So very, very sorry for this loss. I have had Sue tell me so many stories that I feel that I knew Don although I only met him once. If he was half the man Kenny is then he was a wonderful, generous, hard working person. I know he'll be missed here but will always be in your hearts. Our prayers are with you - and the whole Wooten family.*
