“ *My wife was diagnosed with Parkinson's Disease at age 59. She had severe calf pain, muscle pain, tremors, slurred speech, frequent falls, loss of balance, difficulty in getting up from sitting position. She was put on Sinemet for 6 months and then Sifrol was introduced and replaced the Senemet. During this time span she was also diagnosed with dementia. She started having hallucinations, lost touch with reality. This year, our family doctor started her on Tree of life Health Clinic Parkinson's Disease Herbal mixture, 1 month into treatment she improved dramatically. At the end of the full treatment course, the disease is totally under control. No case of dementia, hallucination, weakness, muscle pain or tremors. all thanks to Tree of Life Clinic, Visit Tree of life Health Clinic website www.treeoflifehealthclinics.com ; She is strong again and able to go about daily activities.*

“ *My sincere condolences for your loss. I still remember when Kathy was young and drove a Mustang and wore hot pants! Also, her love for working with miniatures. She has been a brave warrior with her Parkinson's, not wanting help when she was trembling and trying to do something. I admired her determination. I have always thought that she taught me a lot of social graces in my early 20's and have always been grateful to her. Please keep her memory alive in your hearts.*

*Deepest sympathy to the family,
Jeanne Norman*
