

Marjorie Lynne Sasser

June 15, 1965 - October 5, 2021

Margie was a fun loving free spirit who loved her four children Tony, Samantha Jessica and Hannah unconditionally. LaPetra , a childhood friend of her girls became a part of the family and then Margie had five children. She gave them every opportunity she could. She took them camping, fishing, sports and numerous other outdoor activities. As a family they traveled on vacations to Florida, Gatlinburg, Ozarks, Arkansas and more. Margie has ten grand kids at this point and they have been a source of pure joy for her. She did science projects and gardened with them. A life without grand kids would be no life at all to her. They gave her a reason to live. Marge was also an avid animal lover. Throughout her life she had a wide range of pets from dogs to cats to sugar gliders and others. She had a soul that would except anyone or any living thing. She never met someone who wasn't a friend or family to her. Our hearts are with her. We thank everyone who knew or had a conversation with her. You truly impacted her and us.
